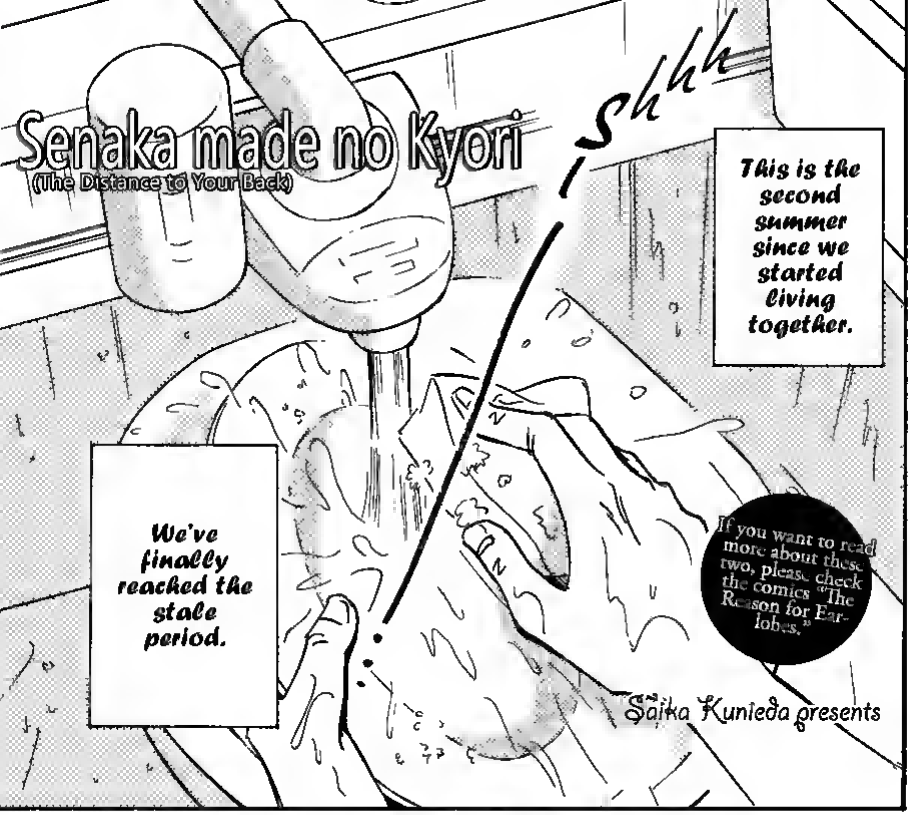
Bunkida Angels



Senaka made no Kyori
(The Distance to Your Back)
Ishhh
This is the second summer since we started living together.
We've finally reached the stale period.
If you want to read more about these two, please check the comics "The Reason for Earlobes."

And why do I say that?
On washing duty

Because the amount of time...
...that Yamaguchi has his back to me like this has grown.
Not at all!
No, I'm not lonely or anything.
shake shake shake
.....
But lately he's strangely cold and brusque.
Before, he suffocated me with his attention.
After ← Before
Oh, hi

YAMAGU-CHI...
nonchalantly
HM?
Err...
WANT SOMETHING TO DRINK?
COFFEE OR TEA?
OR BEER? IT'S COLD!
He didn't even turn.
OH.
REALLY?
HMM,
I'M FINE NOW.
J'd so love to do that to him.
ARE YOU LOOKING DOWN ON ME, EH?!
WHAT THE HELL?! TURN THIS WAY WHEN I TALK TO YOU, BASTARD!!
Ouch, that hurts
pissed off

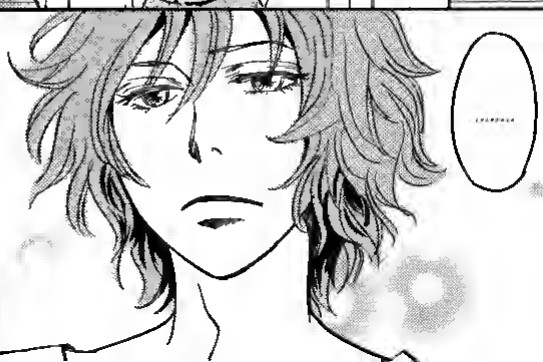
If worst comes to worst and we start fighting, I can tell that I'd lose.

Is that such an interesting piece of information?

Just what is he looking at?

He said he didn't like using computer except for work.

Now that I think of it,



I've never stared at his back so much before.
Will there come a time when I even won't be able...
...to look at his back like this?
Will I cry then?
Or will I be so stunned that my tears won't come out?
That's why I hated the idea of living together.
I've become so attached to him,
that I don't want to leave.
